Parte A. DATOS PERSONALES

Nombre	Alessio		
Apellidos	Gaggero		
Sexo	Hombre	Fecha de Nacimiento	26/10/1985
DNI/NIE/Pasaporte	Y7486285Y		
URL Web	https://sites.google.com/site/alessiogaggeroecon/		
Dirección Email	alessiogaggero@go.ugr.es		
Open Researcher and Contributor ID (ORCID)	0000-0001-8298-2332		

A.1. Situación profesional actual

Puesto	Profesor Titular de Universidades		
Fecha inicio	2024		
Organismo / Institución	Universidad de Granada		
Departamento / Centro	Metodos Cuantitativos para la Economía y la Empresa / Facultad de Ciencias Económicas y Empresariales		
País		Teléfono	
Palabras clave			

A.2. Situación profesional anterior (incluye interrupciones en la carrera investigadora - indicar meses totales, según texto convocatoria-)

Periodo	Puesto / Institución / País
2023 - 2024	Profesor Permanente Laboral / Universidad de Granada
2021 - 2023	Profesor Ayudante Doctor / Universidad de Granada
2021 - 2021	Profesor Sustituto Interino / Universidad de Granada
2020 - 2021	Research Fellow / Universidad de Granada
2018 - 2019	Assistant Professor / University of Nottingham / Reino Unido
2015 - 2018	Research Fellow / University of Nottingham / Reino Unido
2014 - 2015	Graduate Teaching Fellow (GTF) / University of Nottingham
2012 - 2014	Graduate Teaching Assistant (GTA) / University of Nottingham
2012 - 2012	Short Term Consultant / World Bank

A.3. Formación académica

Grado/Master/Tesis	Universidad / País	Año
PhD in Economics	University of Nottingham	2016
Master of Science in Economics and Development Economics	University of Nottingham	2011
Master of Science in Economics	University of Bologna	2010
Bachelor of Science In Economics	University of Cagliari	2008

Parte B. RESUMEN DEL CV

I started my research career in 2011 at the University of Nottingham, with a Ph.D. in Economics, funded by the prestigious Economic and Social Research Council (ESRC) scholarship award.

During my Ph. D, I acquired strong background in quantitative methods and particularly applied econometrics. For my PhD thesis, I collected original fieldwork data and evaluated the impact of a medical intervention in Kampala, Uganda, aimed at people with lower limbs disability. Further, My Ph.D. experience was enriched by a 2-month research visit period at the World Bank, Washington D.C. and a 4-month research stay at the University of Cape Town, South Africa.

I later worked as a Research Associate for the ESRC funded project (£570,000), entitled "Local Government, Economic Growth and Human Development: Chinese Lessons for Kenya and Uganda?", at the Nottingham University Business School. In this project, I further developed my skills and knowledge in applied economics, and I acquired important skills in behavioral and experimental economics. In particular, as part of the project I conducted a series of lab-in-the-field behavioral experiments to study bribery behavior in China, Uganda, and Kenya. As it can be observed, my research skills are quite unique, as they include both academic and non-academic skills that are needed to successfully carry out international fieldwork, including time budget, risk management, leadership, and effective communication.

I was later hired by the Nottingham University Business School as an Assistant Professor in Behavioral Economics and Decision Making. Here I had the opportunity to develop my teaching skills. In particular, I was also awarded the prestigious First Prize for Teaching (£1,000), which, at the very least, demonstrates that my technical background is complemented by excellent communication skills and my ability to build relationships with the people I work with, both locally and internationally. Research wise this period was pivotal, as I shifted my research focus from development economics to health economics.

In February 2020, I have been hired as a Research Fellow at the University of Granada (UGR), under the guidance of Health Economist David Epstein. During this fellowship I mastered cost-effectiveness analysis, which is proven by a recent article under review in the Annals of Surgery (IF: 10.13). Additionally, together with UGR Professor Maria Dolores Jimenez Rubio, I recently won a Grant application (PID2019-105688RB-I00) from the Ministerio de Ciencia e Innovación, entitled APLICACIONES en Técnicas de Evaluación en Salud.

Since February 2022 I am a Professor in the Department of Quantitative Methods for Economics and Business at the University of Granada. Overall, my research portfolio is quite robust, evidenced by over 100 citations and a h-index of 6.

To conclude, over the years I developed relevant international experience and network. This is demonstrated by (a) frequent fieldwork collaborations with host institutions in different continents, including Makerere University, Uganda; Sichuan University, China; Ningbo University Of Nottingham, China; Kenyatta University, Kenya; (b) a 2-month research visit period at the World Bank, Washington D.C.; (c) a 4-month research stay at the University of Cape Town (South Africa), and (d) presenting and participating to a number of international conferences, including the Health Economists' Study Group Summer Meeting (2019) XXXIX Jornadas de Economía de la Salud (2019), and the Centre for the Study of African Economies (CSAE) Conference (2013, 2014, 2015).
